

Dear _____

I was unable to complete my exams as I was sick with Leprosy, at the time my legs had fallen off, and I was unable to walk to school to sit my university exams. You will be pleased to know that I have since made a full recovery, and my legs have re-attached without scarring.

I therefore apply for special consideration in my exams that I was unable to attend, and those I did sit as I was most stressed from the whole situation.

Regards

A. Student.
